

BIODATA

Name	Quratun Nisa' Binti Jailani
Age	20 Years Old
Gender	Female
Race	Malay
Nationality	Malaysian
State	Hulu Langat
City	Selangor
Hobby	Reading & Listening to Songs

I'm a 20-year-old girl, that was born on 31st March 2004 at Hospital Besar Kuala Lumpur and lived in Hulu Langat, Selangor for the whole 20 years old. However, since child, me and my family always went to my grandparent's house at Ampang, Selangor every morning and went back to our house at night for some reason. Basically, I could consider myself growing up with both my grandparents until now as they always taking care of me since kindergarten until primary school when my parents go to work.

Living as a child, I grow up with so many ambition. A teacher? A lecturer? A doctor? A chef? I have imagined myself as them before. I love reading both Malay and English books from many genre including fiction, young adult, thriller and non-fiction. Sometimes, I like to read books from Indonesia too. Aside from that, I love listening to songs. I could listen to them even when I was studying, reading or in the verge of sleeping. I prefer to listen to K-pop, T-pop, English songs, Malay songs and sometimes other different foreign language. I might not a movie or a drama watchers, but some's even got a place in my heart too.

FAMILY

I come from a family of five members: my father, my mother, my middle brother, my little sister, and me. Each of us plays a unique role in making our family a loving and supportive unit. Our close bond is something that I cherish deeply.

First, let me talk about my father. His name is Jailani Bin Tumiran, born and raised in Muar, Johor, and he is the pillar of our family. He works as a supervisor at Bulk Mail Center, Shah Alam, providing for us and ensuring that we have everything we need. One thing I admire most about my father is his willingness to fight for what he wants. He always teaches us important values, such as hard work and kindness. He also never failed to provide us with enough education and necessities. In his free time, he enjoys gardening and loves to watch Korean variety shows such as Three Meals a Day and more!

Next, there's my mother, Mrs. Shouti Noor Fahmi Binti Hashim. She is the heart of our family, and her warmth and care keep us all connected. My mother works as a clerk at one of Pos Malaysia Branch, and despite her busy schedule, she always finds time for us. Her cooking is something I look forward to every day, especially when she makes Eid tradition foods. I also admire her dedication to becoming the righthand of the family, and she's always there to lend a listening ear when any of us need advice or comfort.

Then there's my little brother, Aiman Najwan. He is 17 years old and is in high school. We have our differences sometimes, but he is always there for me when I need help. He really loves cars and has a bunch of Hot Wheel's collection in his bedroom. Even though I rarely be at home, we always make time to go out along with our little sister for food hunting, bookstore shopping and watching movies.

My little sister Quratun Nabihah is the baby of the family. She's 15 years old and we might say that she is a copycat of me. She loves books and always sends me her new book-to-buy list every time she gets one. Even though she's younger, she's incredibly sharp and quick to learn. I enjoy spending time with her, whether it's helping her with her schoolwork or playing her favorite game and gossiping over our recent readings. Watching her grow up is truly a special experience.

Lastly, not to forget my two-favorite person, our grandparents, Mr. Hashim and Mrs. Fatimah. They have always been a source of comfort and wisdom for our family. I love spending time with them because they have the most amazing stories about the past, and I learn so much from their experiences. I remember myself going back home after went to kindergarten and shows what I did over the day. My grandparents always spoil us with delicious homemade treats, especially fish curry which is my absolute favorite! I admire their strength, kindness, and the way they have held our family together over the years. They are truly the heart of our extended family, and I feel so grateful to have them in my life.

EDUCATION

My educational journey began at Tadika Sri Desa, where I first stepped into the world of learning. The warm and nurturing environment of my kindergarten helped me build a strong foundation in basic skills such as reading, writing, and social interaction. I have fond memories of my early years there, where I made my first friends and developed a love for learning through fun activities and play.

For primary school, I attended SK Taman Kosas, where my academic experiences became more structured. It was here that I learned the core subjects and began participating in extracurricular activities, which helped me grow both academically and socially. In addition to attending SK Taman Kosas, I also went to KAFA Integrasi Taman Sri Watan, where I learned about Islamic studies, deepening my understanding of religious teachings and values. Balancing both schools shaped me into a well-rounded individual, instilling discipline and responsibility early on.

For secondary education, I attended SMK Bukit Indah for a eight months before moving on to MRSM Mersing, which provided me with an opportunity to study in a more challenging academic environment. The MRSM system encouraged me to push my limits and develop strong problem-solving skills and I continue to study in science stream. After completing my secondary education, I pursued a diploma at UiTM Rembau, where I specialized in Diploma in Information Management. My time at UiTM helped me gain practical knowledge and skills in my field, preparing me for future challenges and career opportunities.

FRIENDS

During my time at MRSM Mersing, I was fortunate to meet two of my best friends who have played an important role in my life. We bonded over shared experiences, laughter, and academic challenges, and those friendships have remained strong even after we went our separate ways for further studies. Their presence has been a constant source of support and encouragement throughout the years.

The first friend I want to talk about is Nor Aina Shofia binti Norazizoliraman. From the moment we met, I was drawn to her warm and caring nature. I remember seeing the first day I stepped into MRSM Mersing. She is incredibly dedicated and hardworking, qualities that have taken her far in life. After finishing at MRSM, Aina pursued her degree in education (Mathematics) with Honors at Universiti Pendidikan Sultan Idris (UPSI). Until now, she has never failed to amaze us with her educational achievements as she is known as the most genius among us. Seeing her dedication to her studies and her passion for education has always inspired me. Despite her busy schedule, we still keep in touch, still try to meet each other every semester break, and I am proud to see her chasing her dreams.

My other best friend is Nur Anis Sofia bt Adisiman, who is just as remarkable. Anis has a vibrant and energetic personality that always brings a positive atmosphere wherever she goes. She went on to study for a diploma in Applied Science at Universiti Tun Hussein Onn Malaysia (UTHM). Anis's passion science and her determination to succeed have always impressed me, and I know she's destined for great things. She is the strongest soldier in our groups even if she looks very polite and gentle among us three. Even though we still didn't get the chance to meet each other yet, there are still numerous videocalls we got to do every day. When we are reminiscing about our MRSM days or talking about our current lives, she never fails to lift my spirits.

Both Aina and Anis are not just friends but sisters I've gained along my journey. Even though we are all pursuing different paths, the bond we built during our time at MRSM Mersing remains strong. I am grateful to have these two amazing individuals in my life, and I know that, no matter where life takes us, our friendship will continue to grow.
